

**Series EKB: 3/4" Disc Thermostat**

The sealed design of EKB provides moisture resistance for high humidity environments.

Automatic reset for high and low temperature applications and manual reset for high limit temperature. The switch opens or closes its electric contacts on temperature rise.

Surface and tube mounting options with a wide variety of terminals, lead wires and mounting options provide excellent design flexibility.

Used in refrigerators, air conditioners, Ice makers freezers, as well as defrost termination and fan delay control.

Temperature range: -30C to 80C (-22F to 176F)

Contact rating: SPST and SPDT with 5A to 25A @ 120/240VAC
